PURASTOCK
ALL NATURAL STOCKFEEDS

WHO IS PURASTOCK?

Owned and operated for five generations by the Furney family.

This modern, computerised, pneumatic flour mill supplies top quality human grade Bran, Mill Run, Wheat Germ and Pollard to our stockfeed mill. These ingredients are then carefully combined with locally sourced cereal grains, vegetable proteins, molasses and essential minerals to produce the **PURASTOCK** range of all natural stockfeeds.

Our stockfeeds have been formulated from all natural quality ingredients to promote health and performance and meet the nutritional requirements of your animals. The strict use of only natural high quality ingredients provides our customers with security in the knowledge that our feeds are 100% free from chemicals, artificial additives, hormones and animal bi-products such as meat meal and other restricted animal material.

With a customer base spanning across Victoria, New South Wales, South Australia and Southern Queensland, the **PURASTOCK** stockfeed range provides consistent quality feeds for a wide range of animals including Sheep, Cattle, Horses, Poultry and Pigs.

Our company demonstrates its commitment to safety, quality and continuous improvements by maintaining accreditation under international standards for quality and food safety management. This includes FeedSafe®, which is a program aimed at providing greater security of supply to the Australian stockfeed industry through a focus on quality assurance and risk mitigation in the manufacture and use of animal feeds.

OFFAL...

PURASTOCK BRAN

AVAILABLE BAG SIZES: 12kg

Derived from the first protective layer of the wheat grain. This fibrous layer is high in protein and vitamins and is a common ingredient used in feeding animals. It is easily digested and provides energy at levels similar to oats. Also contains useful levels of B-Group vitamins and is a highly palatable feed.

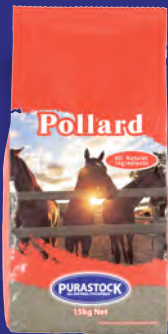

CRUDE PROTEIN = 15% FIBRE = 8%

PURASTOCK MILL RUN

AVAILABLE BAG SIZES: 15kg

Mill Run consists of a combination of bran, pollard, wheat germ and flour. This blend is highly palatable to most types of livestock including horses, pigs, poultry, goats, sheep and cattle.

CRUDE PROTEIN = 14% FIBRE = 6%

PURASTOCK POLLARD

AVAILABLE BAG SIZES: 15kg

Wheat pollard is a finely milled blend of bran and wheat midlings. It is a highly palatable energy and protein rich feed that is commonly fed to horses, pigs, poultry, goats, sheep and cattle.

CRUDE PROTEIN = 13% FIBRE = 5%

GRAINS...

PRODUCT	BAG SIZE	DESCRIPTION
FEED WHEAT	25kg	Suitable for general purpose feeding. Can be supplied cracked on request.
FEED BARLEY	25kg	Suitable for general purpose feeding. Can be supplied cracked on request.
WHEAT GERM	20kg	Contains high levels of vitamins D,B and E.

PELLETS...

PURASTOCK FREE RANGE LAYERS

AVAILABLE BAG SIZES: 20kg | 1000kg

Purastock Free Range Layer Pellets are formulated from natural fresh ingredients and have the necessary base vitamins and minerals needed to maintain the health of all types of poultry. These strictly vegetarian pellets are nutritionally balanced and contain no added hormones or antibiotics.

CRUDE PROTEIN = 15% FIBRE = 10% PELLET SIZE = 4mm

PURASTOCK LYMPIA HORSE PELLETS

AVAILABLE BAG SIZES: 20kg | 500kg | 1000kg

A balanced horse conditioner, supplying all required nutrients to keep your horse in peak condition while remaining calm. These pellets are suitable for mature horses and ponies, either for general feeding or while undertaking moderate to heavy work loads.

CRUDE PROTEIN = 12.75% FIBRE = 7% PELLET SIZE = 6mm

PURASTOCK SHEEP & CATTLE NUTS

AVAILABLE BAG SIZES: 20kg | 500kg | 1000kg

Suitable as a supplementary feed to help meet the nutritional requirements of sheep and cattle, when pasture quality is poor or in times of drought. These grain based nuts are palatable to all ruminant livestock. The larger nut size minimises wastage when feeding livestock on the ground. Features all natural ingredients with no added urea.

CRUDE PROTEIN = 15.80% FIBRE = 12.75% NUT SIZE = 10mm

PURASTOCK CUSTOM MIX PELLETS

AVAILABLE BAG SIZES: 20kg | 1000kg

Purastock Custom Mix Pellets are a carefully formulated utility pellet that are palatable to all animals. Suitable for Cattle, Horses, Sheep, Poultry, Pigs, Calves, Goats, Ostriches, Alpacas, Emus, Rabbits and Mice.

CRUDE PROTEIN = 14% FIBRE = 6% PELLET SIZE = 6mm
